(AN ISO 9001 : 2015 CERTIFIED AND NAAC ACCREDITED INSTITUTION)

Vengoor, Pattikkad P.O., Malappuram Dist., Kerala, PIN - 679 325
(Approved by AICTE and Affiliated to APJ Abdul Kalam Technological University)

Managed by : The Muslim Educational Association

January 17, 2020

Dear Nico,

We are very happy to say that MIELES was an excellent and beneficial project for us, it has made a lot of knowledge level, experience level and infrastructure level positive transformations in our organization.,

MEAEC - MIELES – Impact

The MIELES project has reformed the e-Learning strategies of MEAEC. We have got lot of insights in this area which will help our students and teachers to enhance the effectiveness of teaching-learning process.

- ✚ For the first time we have got an opportunity to do the SWOT analysis to support the development of an e-Learning strategy. The purpose of this SWOT Analysis was to identify both the internal and external factors that may impact on e-learning strategy adaptations over the next three to five years. Dr. Carl Gustaf & Dr. Rajeev (KTH-Sweden) visited our college to support the preparation of SWOT analysis. This analysis helped us to identify the strengths and weakness of our system positively and decided to explore the available opportunities by facing and overcoming the threats effectively.
- ✚ The focus group meeting held at MEAEC facilitated by Dr. Nicolas Patrici, inspired our teachers and students a lot. More teachers and students are registering and doing NPTEL courses now.
- ✚ Teachers use Videos, PPTs and Animations to deliver the content effectively. As a trial they have started producing E-Learning content using mobile phone as the audio video recording facility, and publishing the same through YouTube.
- ✚ This project has given us an excellent opportunity to interact with eminent professors from different universities across Europe as well as from Major Indian Educational Institutions and to understand the best practices followed by them.
- ✚ The MOODLE workshop conducted at University of Mysore by Dr. Rino Ragno (university of Sapienza) as a part of this project has given confidence to the participants to build own MOODLE platform.
- ✚ The MIELES project has inspired us to develop an excellent ERP system in our college, where administration and academic (Teachers, students & Subjects) resources can be easily managed. Where teachers can upload e-Learning content for students and they can access the same using login id and password. Teachers can conduct quiz programs and evaluate the same, online using this system.

- ✚ We are highly benefitted by this project; we could purchase excellent e-Learning equipment using the fund received and the studio is under construction. We have constituted an e-Learning committee to plan, monitor and manage the faculty e-Learning training, e-Learning content production (Exclusively for APJKTU students), Distribution and Marketing.
- ✚ We are in the process of signing an MOU with Amritha University, on e-Learning training which will be highly beneficial for our Students as well as teachers. We are ready and willing to do such tie-ups with other European as well as Indian partners.

We request you to give us more chances to associate with you in all possible future projects. We are committed to dedicate...

Best Regards,

Principal
